Policy

Policy from the WIC State Operations Policy and Procedure

Policy 215.08 Notification of Eligibility Status

Applicants must be notified of their eligibility status at the time of certification. This policy describes the process of notification.

An applicant would be considered ineligible if they are attempting to be certified and do not have an active WIC status. This includes applicants who have or have never been on the WIC Program before. If a participant with a current active WIC status is no longer eligible for the program, a termination notice should be used. Terminations are outlined in Policy 215.30.

Applicants may be determined ineligible for services because:

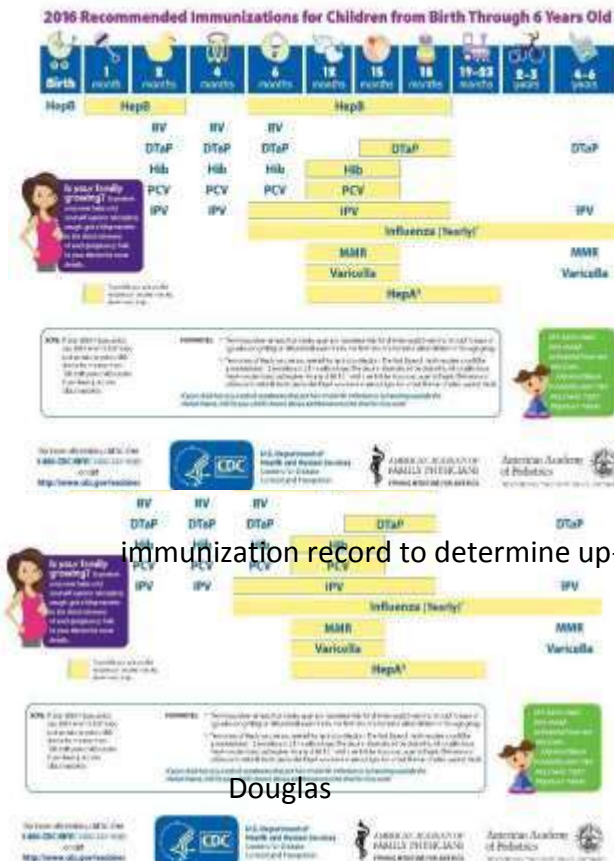

- Household income exceeds the guidelines,
- They failed to bring proof of identity,
- They do not have a nutrition risk, or
- The Iowa WIC Program is serving only higher priority classes due to funding constraints.

Nutrition assessment and nutrition education may be provided to applicants who are found ineligible. Local WIC personnel are encouraged to offer these services along with appropriate referrals for health and other social services.

2016 Immunization Webinar for WIC Staff

Please join Every Child By Two - Carter/Bumpers Champions for Immunization, and our partners at the USDA, the National WIC Association and the Centers for Disease Control and Prevention, for a lunchtime *Immunization Webinar* developed specifically for WIC staff. During this one-hour webinar you will learn about vaccination recommendations for infants, children and pregnant women; key messages regarding the immunization schedule, vaccines and vaccine safety; and an overview regarding how to review a child's immunization record to determine up-to-date status of WIC clients.

Opening remarks will be presented by Amy Pisani, Executive Director, Every Child By Two; Rev.

A. Greenaway, President and CEO, National WIC Association; and a representative from the Supplemental Food Programs Division, Food and Nutrition Service, USDA.

Dr. Nancy Messonnier, Director, National Center for Immunization and Respiratory Diseases, Centers for Disease Control and Prevention will serve as the main speaker for this one-hour webinar.

You must pre-register online via the registration link below to participate in the webinar.

Thank you of the Week:

"I'm not sure where my family would be without WIC. It has literally saved our lives during this time of economic hardship. We are very thankful for WIC." ~ WIC Participant

~~~~~  
"The thing I like best about the eWIC card is that I can buy anything I want from my WIC benefits when I want, with checks I had to buy everything on the check or lose it, now if I just want a gallon of milk and some apples I can buy just that!" ~WIC Participant

### eWIC Focus Update

#### **Documentation of Address for Homeless Participants**

In Focus, completing the address section is required, even if the participant is homeless. In the case of homeless participants staying at a motel or shelter we recommend recording the address for the motel or shelter where they are currently staying but then mark the Do Not Mail checkbox so no mail will actually go there. Then of course you should mark the homeless checkbox too.

| <b>Infants attending</b> | Mothers may bring quiet breastfeeding babies less than 6 months of age to the workshops. Due to the professional nature of the sessions, mothers are expected to care for their babies outside the meeting room when needed. It may be easiest to bring a support person along to provide baby care outside the meeting room.                                                                                                                                                                                                                                                                                                                                                                                             |
